

## LABEL PRINTING

### ScanForce Leads The Pack In Accuracy & Efficiency.

#### Printers

ScanForce can help simplify the process of identifying the right printer for your business needs.

There's a wide variety to choose from – thermal transfer, direct thermal, desktop, industrial, mobile, etc.

#### Label Design

Labels are designed in a very simple WYSIWYG interface and our team is trained to help you get the exact look you want. Personalize your design with your company logo or other images.

#### Wireless

ScanForce offers you the freedom of printing anywhere, anytime. Print on the fly, using rugged wireless handhelds, or when you get back to your workstation.

### Streamlined Operations

From one-off labels to printing at the point-of-activity in PO Receiving, BM Production Entry, or SO Shipping, ScanForce Label Printing allows can be integrated into your current process, or help you streamline your process and become more efficient.

- Choose from built-in design editing capabilities or let our experts turn your vision into reality. With an unlimited number of designs, you can tailor labels to suit your brand and reinforce memory recall and recognition at every brand touchpoint.
- Print labels on the fly with a familiar item selection interface, print item labels individually or in ranges, choose between bar coding item numbers or aliases, lot and serial number bar code printing, print from a PC or from mobile handhelds, integrate printing from PO Receiving, BM Production, and SO Shipping.
