

A Full Service EDI Solution

Does your business operate multiple technology investments across different sales channels? Are your current processes limiting growth potential? Has only part of your organization adopted EDI?

SPS Commerce provides a suite of products and services to drive superior B2B collaboration between vendors and their retail partners by leveraging our **people, processes** and **technology**.

How You Succeed

SPS Commerce provides a suite of products and services to drive superior B2B collaboration between vendors and their retail partners by leveraging our people, processes and technology.

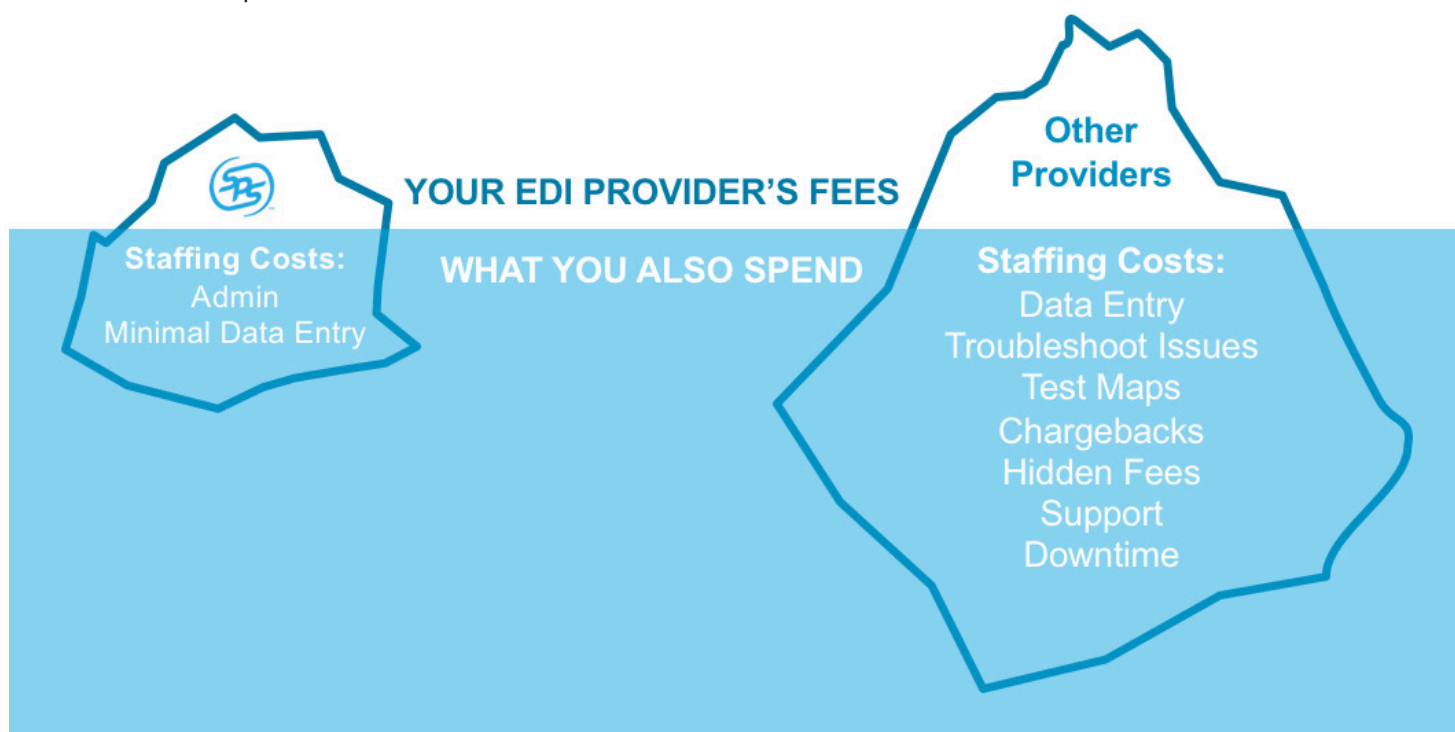

At SPS Commerce, we make it simple and easy to support your entire business model. Just one connection to the SPS platform grants your business access to the **world's largest retail network**, with more than 75,000 customers worldwide, 250 million transactions and over \$1 trillion dollars of orders flowing through the system.

SPS can help streamline your capabilities across sales channels, and provide you with additional tools and resources by connecting once, thus eliminating the need for you to maintain multiple different connections.

Do More With ONE Connection to SPS Commerce:

- **Full Compliance:** Compliance through the most reliable trading partner network
- **Reduced Cost:** Decrease or eliminate keystrokes for all business documents
- **Increased Revenue:** Process orders faster with less errors
- **Improved Efficiency:** Consolidate sales channels into one, easy to use, cost-effective platform

Who is SPS Commerce?

Headquartered in Minneapolis, MN, with offices in the US, Canada, China, Europe, and Australia, SPS supports over 70,000 customers including retailers, distributors, grocers, suppliers, brokers, 3PLs, and manufacturers.

If you have questions about EDI, implementation or related topics, visit **SPS Commerce** at spscommerce.com and request to talk with an EDI expert.
