

sage 50cloud

Easy, Secure, Mobile and Customizable

Simplify how you manage your business – choose mobile accounting with Sage Cloud Hosting

DEDICATED SERVERS AND RESOURCES

What does this mean? Everything just works.

Your applications and data are best suited for a dedicated environment. No resources shared among other clients. Safe, secure and reliable with cloud hosting from gotomyerp.

Low Touch Environment

Your environment is custom no matter the size of your organization or number of applications needed to support your operations.

Expert Sage Support

End-to-end support for Sage and for all your 3rd Party Applications like StarShip, TrueCommerce, Orchid, MISys Manufacturing, Edisoft, BizNet and more.

Beyond Backups

We don't just backup your data nightly; we image the whole environment and every server included.

Redundant backups are stored at other data centers so that we can recover your full environment without hiccups.

Sage 50cloud

Desktop Software That Gives You The Best of Both Worlds – Access Anywhere

Automatic Upgrades, Maintenance

This is a no-brainer. It's always included. We automatically schedule time to perform solution upgrades, updates or maintenance for you. Our experts are trained in Sage 50cloud and nearly all 3rd Party Solutions. All your systems in one managed environment with during or after installation, answer your technical questions, or help troubleshoot.

Beyond Backups

All your systems and data are backed up automatically with scheduled maintenance every night. But wait, there's more! Every night during our regular maintenance you get fresh hardware running your business along with redundancy across our Global Data Centers.

Agreement: Monthly Fees All monthly fees are due and payable in advance of the Month the cloud hosting services are provided. All Fees are due on the 1st of the Month. Fees will vary depending on a number of factors, including the Access Level that Customer selects, number of users, applications, performance levels, the service level agreement that applies to the services through the Customer Portal. Month to Month fees for the services will be based on Customer's selection of services chosen in the Customer Portal. Your discount will be applied at the time of invoicing. Net Monthly Price is estimated until invoiced. Such amount is due and payable upon execution of this Price Summary and may increase or decrease after you complete the onboarding and Customer Configuration in the Customer Access Portal. Customer is responsible for the minimum monthly fees if Service isn't used by Customer under this Agreement and This Pricing Summary is subject to the gotomyerp Terms and Conditions found here and are hereby incorporated by reference and updated from time to time <https://gtmerp.com/toc>. Customer acknowledges and agrees that it has read and understood the terms of the gotomyerp Terms and Conditions. Accepted and agreed.

gotomyerp

SPECIALIZED GOVERNMENT CLOUD SERVICE PROVIDER (CSP)

gotomyerp is ready to provide fully managed cloud services to all US Federal Government, Agencies, Defense Contractors, and other related government entities.

Other public services and agencies include states, counties, municipalities, health, education and other specialized government-provided services:

- o Defense
- o Civilian Government Agencies
- o Education
- o Federal Law Enforcement
- o Government Health IT Agencies
- o Non-Profit Organizations
- o State and Local Governments
- o Universities

Our datacenter offer government customers and related partners with the secure cloud infrastructure that complies with:

- FedRAMP High baseline
- the DOJ's Criminal Justice Information Systems (CJIS) Security Policy
- U.S. International Traffic in Arms Regulations (ITAR)
- Export Administration Regulations (EAR)
- Department of Defense (DoD) Cloud Computing Security Requirements Guide (SRG) for Impact Levels 2, 4, and 5
- FIPS 140-2
- IRS-1075
- other compliance regimes.

gotomyerp GovCloud always private dedicated service is built on Amazon Web Services (AWS) infrastructure to provide your organization the highest rated environment to support highly intensive or sensitive data cloud workload.

gotomyerp is System and Organization Controls (SOC) certified

Get the extra piece of mind by choosing a SOC 1 and SOC 2 certified cloud hosting provider for your business.

SOC 2 Certification

This certification verifies that a cloud provider effectively implements and practices what they say they do. Even if you don't have compliance requirements, a SOC 2 report is a written form of assurance that your data is protected.

Extra Security

Transitioning from managing your own data to considering cloud hosting options can create uncertainty. If you are assessing potential cloud providers, using a company that has a SOC 2 certification gives you transparency for what to expect of the provider.

Everything just works!
